

Installation Instructions – PM171

SL224 / SL234 / SLGL234 Spot-LIGHTZ

Mounting:

SL224 Surface mount
 SL234 Spike mount
 SLGL234 Spike mount 2

Constant voltage:

11-30VDC: 2700K, 3000K, 4000K, red, amber
 20-30VDC: green, blue

Caution:

May not be suitable for areas with high vibration.
 All cabling connections required to be fully waterproofed for exterior installation.
DO NOT use 12VAC or 24VAC drivers.

Note:

Reverse polarity protected to 60V.
 Smaller cables may be used if operated from 24V power supply units.

Warranty:

Luminaire: 5 years
 Warranty will be void if the product is immersed fully in water.
 Proof of purchase is required. See website for full warranty conditions.

Please see overleaf for Constant Voltage information

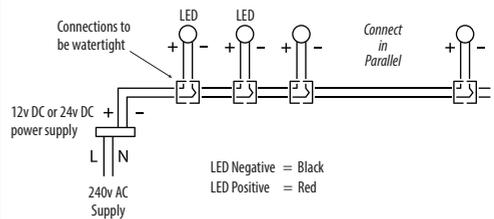

www.switch-lighting.co.nz
