

# sLED Lighting

## Lighting excellence for every space

Switch Lighting's sLED Lighting range is the economical choice for general illumination. Featuring energy-efficient LED technology, these products provide long-lasting, quality light with minimal power usage. The trim colours on the sLED DOME series are designed to perfectly complement the ZELA architectural range of lighting products, ensuring visual cohesion across all spaces within a property. Whether for residential or commercial applications, Switch Lighting's sLED range offers versatile, cost-effective solutions, seamlessly blending innovation with affordability.

The sLED Lighting range includes our new Up/Down Light! This versatile new product creates a soothing ambient, layered lighting effect. Accentuating architectural features and adding depth to a space by directing light both upwards and downwards.

The Switch Lighting Wall/Stair Light combines form and function to illuminate and accentuate hallways and stairs with sleek, efficient lighting.

Switch Lighting's commercial range boasts a selection of lighting solutions, from the high CRI or switchable CCT battens; the versatile Oyster Lights which are double insulated and dimmable; to the high-performance Commercial Downlights, which are designed to elevate any business environment with energy-efficient brilliance.
